## **Friends,**

I hope you and your family are enjoying the beginning of the fall season. It's great to be back in North Carolina.

This week in Washington, [a bombshell report from the Washington Post](#) revealed that federal prosecutors see enough evidence to charge the President's son, Hunter Biden, with tax and gun crimes.

**TWEET:** [Hunter Biden is a crook](#)

The DOJ began investigating Hunter's taxes in 2018, and widened as Hunter's laptop brought to light more misdeeds, including [Hunter's](#) dealings with Burisma and payments for ["the Big Guy."](#)

Hunter Biden's illegal and crooked dealings, all revealed on his laptop, were labeled by the Democrat-Media-Big Tech alliance as "Russian disinformation" to help Biden win. But as with so many recent stories, the truth is not what the media originally reported.

The charges being discussed are just the tip of the iceberg. Hunter Biden is a crook, and everyone knows it. A thorough investigation into Hunter and Joe Biden's dealings is long overdue. Next Congress, House Republicans must hold them accountable for their shady and corrupt business deals.

## **Biden's Energy Destruction**

Food prices. Gas prices. Home heating prices. They're all on the rise this October.

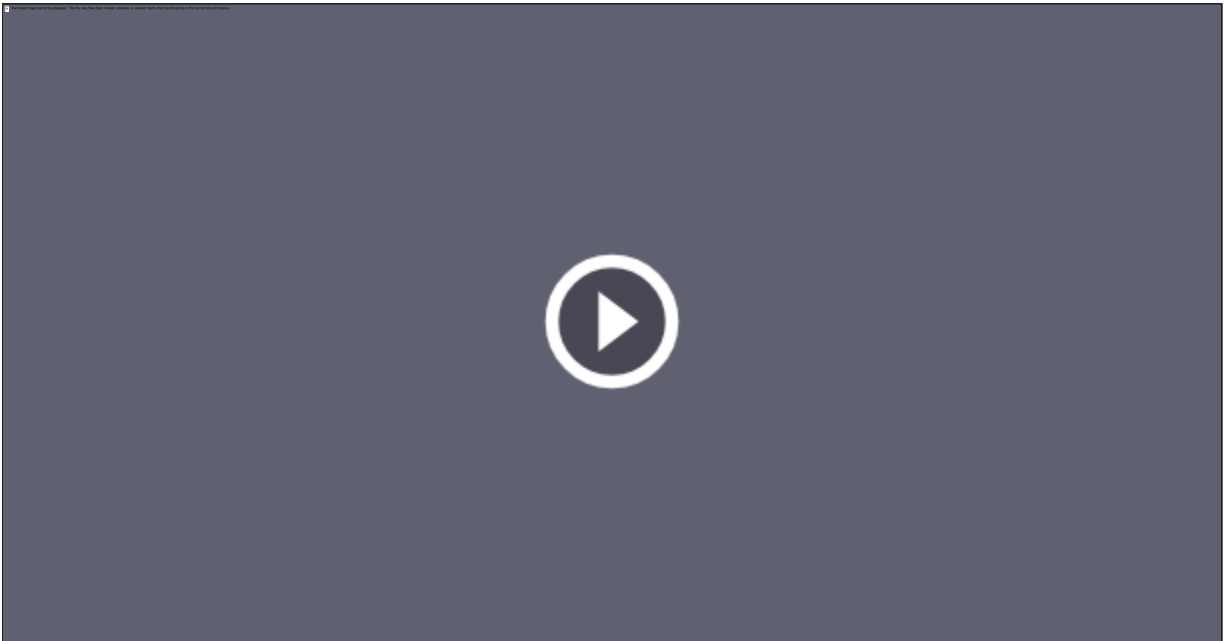

And the President's response? He is begging dictators and relaxing sanctions on despotic governments for oil all while depleting America's strategic reserves.

There is a simple solution that the President refuses to deploy: unleashing American energy. Under President Trump, America was energy independent. Under Biden, American officials are relying on Saudi Arabia, and now Venezuela, for oil.

**READ:** [U.S. Looks to Ease Venezuela Sanctions, Enabling Chevron to Pump Oil](#)

Energy prices are set to skyrocket again as OPEC+ voted to cut production this week and Biden drains our oil reserves to the lowest level since 1984. For Biden's energy sabotage, the pain is the point.

This administration's ill-advised war against domestic oil and gas production is coming back to haunt Biden. I sat down with Liz MacDonald on Fox Business to discuss this purposeful energy catastrophe.

## **The Weaponized FBI**

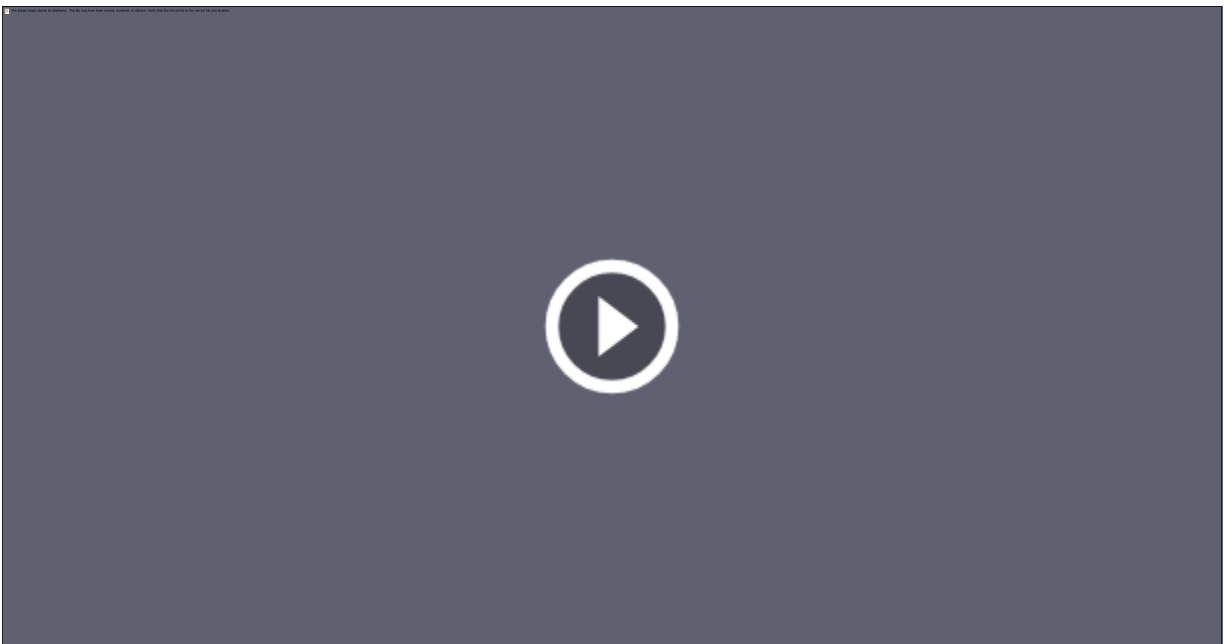

Biden's Justice Department is ramping up its campaign against conservatives, especially pro-life activists. We have never seen the DOJ conduct [politicized investigations](#) and [raids](#) like this before. In addition to a number of recent raids and [whistleblower reports](#), we've saw the Justice

Department target peaceful pro-life protestors while turning a blind eye to violent leftists firebombing crisis pregnancy centers and desecrating churches.

**READ:** [FBI Reportedly Raid Home ‘Guns Drawn,’ 11 Pro-Life Activists Charged for Blocking Abortion Clinic](#)

It is far past time for a rigorous Congressional investigation to uncover the full depth of corruption in the DOJ and FBI and to restore law and order. One thing is clear, we need a creative, unrelenting oversight effort that should emulate the Church Committee that uncovered FBI and Intelligence Community misdeeds in the 1970s.

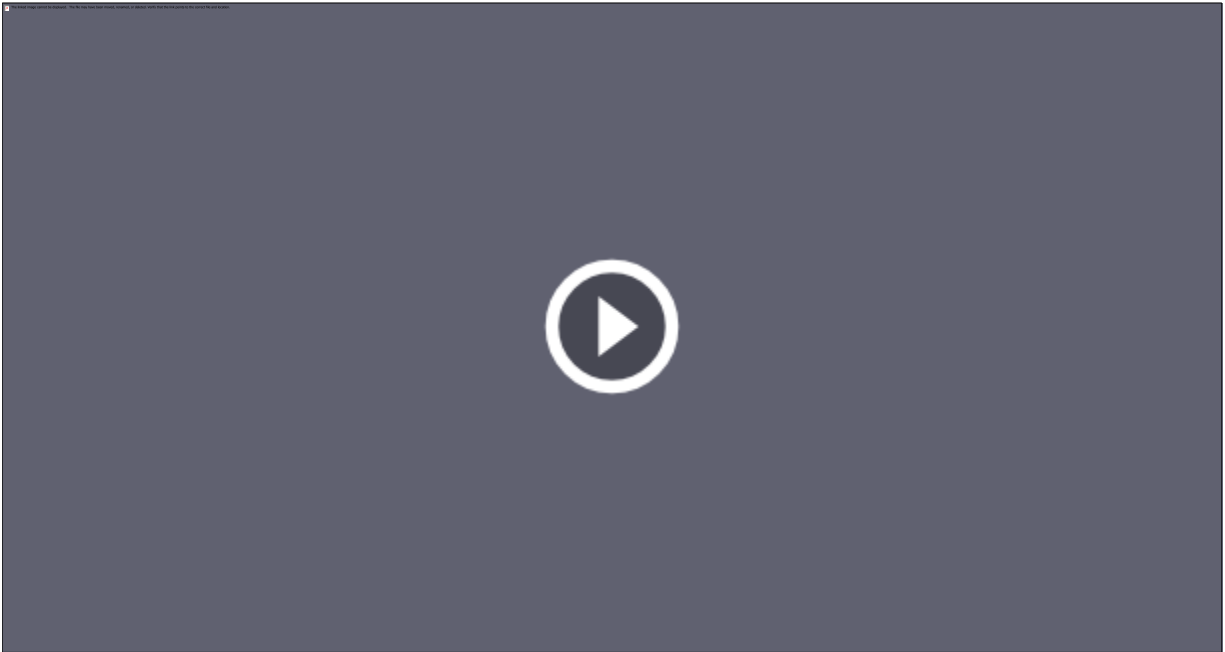

I sat down with Tony Perkins at the Family Research Council to discuss the politicization of the Justice Department, the targeting of pro-life activists, and where Congress should go from here:

## **We Must Turn Down the Heat in Ukraine**

Each new development out of the Russia-Ukraine war is more concerning than the last. We should be looking for ways to find peace and avoid more death, conflict, and catastrophe. Instead, many here in the Swamp are beating the war drums. We now have President Biden saying we are on the brink of “nuclear Armageddon.”

I spoke about the developments out of Ukraine last Friday night on Newsmax –

### **ICYMI: North Carolina Case Set for the Supreme Court**

*Moore v Harper* is an incredibly important case is set to be heard before the Supreme Court this term. It involves the state's legislatures' ability to draw their own legislative districts without facing rank judicial activism, as we saw in North Carolina this year. We cannot allow brute force politics to masquerade as justice.

**WATCH:** [Moore v. Harper Decision Could Drastically Alter the Balance of Power](#)

### **The 2022 Congressional App Challenge**

Students in District 9 interested in coding are invited to compete in this year's National Congressional App Challenge. Individuals or teams may submit their application for any digital platform (web app, desktop/PC app, a web browser extension, robot, Ruby on Rails, mobile, etc.) and can use any programming language (C/C++, Objective C, C#, Java, JavaScript, Python, Ruby, PHP, Swift, "block code", etc.).

App submissions must show some degree of functionality to be competitive!

For a full list of rules, please  
visit <https://www.congressionalappchallenge.us/>

For additional questions please contact Kennon Later at (202) 225-1976  
or [Kennon.later@mail.house.gov](mailto:Kennon.later@mail.house.gov)
